Standard procedure to uninstall Multiware Software programs

All of our software installations follow standards for Windows programs. They are installed with a Windows installer and contain uninstaller functionality. To uninstall a program do the following:

1. Go to your Windows computer's control panel
2. Select the Programs (Uninstall a program) item
3. Select the Multiware Software product you wish to uninstall
4. Click the Uninstall button at the top of the window.

This process will remove the software program from your computer.
