

PawCom2 Change Log

2020

2020.10.1214

- Added support for new Pay Types table. When you add or edit pay types on the Payroll Settings form Pay Types, they go in this table.

2020.08.0714

- PawCom2: Actian Zen added some status codes. 116 added to btStatusText.
- PawCom2: Reworked text in btStatusText strings for easier reading.
- Access Application: Added better error handling in Btrieve Connect.
- Access Application: Improved performance of read-all [audit trail] & [inventory cost] records. Both tables can get extreme long. After the initial read of each table:
 - Only the last 12 months of [inventory cost] records are refreshed.
 - Only the last 6 months of [audit trail] records are refreshed.
 - You can easily override & get a full read by deleting all records in either table.
 - When you change company, a full read of each table is automatic.

2020.02.0211 (Notice ONLY)

- Our Access Application has this version number. The DLL has not changed.
- As of Sage 50 2020, [employee imports & updates are crippled](#). See EmployeeImports_2020_Part1.pdf for details.
- Our Multiware Toolkit for PT uses the Sage 50 SDK. It does allow employee imports with limitations. See EmployeeImports_2020_Part1.pdf for details.
- Our Multiware Toolkit for PT also allows unencrypted import & export of Employee SSN's, Direct Deposit Bank Account # and Direct Deposit Routing # if you need to handle these fields.

2019

2019.10.2917 Sage 50 2020.1

- New fields (7) added to Employees table
 - State Dependents, Local Dependents, Fed Use Higher WH, Fed Dependent Amount, Fed Other Income Amount, Fed Deduction Amount and Based On Tax Date (see [Sage 50 2020.1 Update Notes.pdf](#) for details)

2019.07.2115 Sage 50 2020 >> ***A significantly changed release of Sage 50***

- SPECIAL NOTE: Actian Zen (the new name for Pervasive) made no impact of PawCom2. **HOWEVER, YOU CANNOT RUN OLDER VERSIONS OF SAGE 50 ON THE SAME MACHINE WITH SAGE 2020.**
- New fields added to Employee & Vendor tables. See the related Sage 50 forms for usage.
 - Employee: Special Allowances (3-5) & Extra Special (3-5)
 - Vendor: Notes field (255 characters)
- Some field sizes have changed in Address, Chart, Customers, Employee, Jobs, Journal Header & Line Item Tables. ***YOU WILL NOT HAVE ACCURATE IMPORT OR EXPORT WITHOUT THIS RELEASE.***
 - All address fields have been increased from 30 to 50 characters.
 - Chart of Accounts: Last Deposit Ticket increased from 8 to 20 characters.
 - Employees:
 - § Direct Deposit Bank Account # increased from 17 to 48 characters & is now ***encrypted.***
 - § Direct Deposit Routing # increased from 9 to 24 characters & is now ***encrypted.***
 - § SSN increased from 11 to 24 characters & is now ***encrypted.***
 - Jobs (address fields have been increased from 30 to 50 characters)
 - Journal Header
 - § Bank Account# increased from 17 to 48 characters.
 - § Routing # increased from 9 to 24 characters.
 - § Deposit Ticket ID increased from 8 to 20 characters

- § Company Direct Deposit Bank Account # increased from 17 to 48 characters.
 - § Company Direct Deposit Routing # increased from 9 to 24 characters.
 - Line Items
 - § Line Item Type (Category) increased from 8 to 20 characters.
- Index Changes
 - Employee indexes were shuffled. See PawCom2 Reference Manual for details.
 - Index 4 was changes to Employee GUID
 - Index 3 is now Employee Record Number. THIS IS A SIGNIFICANT CHANGE. WE USE INDEX [Employee Record Number] MANY TIME IN OUR CODE. ALL FIXED.
 - New indexes were added for Employee GUID & Zip Code.
- 2 tables have been removed: UPS User Info & UPS Shipments.

2018

2018.11.2913 Changes affect only sample code which is used by programmers.

- The PawCom2 library version remains the same. No changes were made to the library.
 - Sage 50 2019.1 has no changes to their tables or fields.
- The MS Access application has 2 changes; the version for the MS Access application has changed to 2018.11.2913. These changes affect sample VBA code only.
 - The demo purchase invoice from purchase order has been changed.
 - A new demo for sales invoice from a sales order has been added.
 - The demos are listed in the Demo form.

2018.01.2314

- Wrapper fix for purchase invoice inserts. The btClose was changed to close correctly.

2017

2017.08.1814

- The wrapper needed to be recompiled. No other changes.

2017.07.1317

- Sage 50 2018 Upgrade (Version.txt 28.011) (About 25.0.00.0052)
 - **Contacts:** added new timestamp field LastSavedAt (Text)

2017.04.1517

- Sage 50 2017.2 Upgrade (Version.txt 27.211) (About 24.2.00.0230)
 - **Line Items:** added new timestamp field LastSavedAt (Text)
 - **Vendors:** added new timestamp field LastSavedAt (Text)

2017.04.1214

- Journal Header table field change: CCRelatedTrx changed from 32-bit integer to 64-bit integer.

2017.01.2313

- Fix version that displays in Select Company

2016

2016.09.1818

- New Company Data Fields:
 - SageDriveActive (Boolean)
 - SageDriveDataSetID (String)
 - SageDriveKey (String)
- New Customer Fields:
 - ACHStoredAcctRef (String)
 - MaskedBankAcctNum (String)

2016.09.0517

- Fixed a thread-memory leak >> the cause of the pblIndex = -2 error.
- Enhanced error reporting for thread handler.

2016.08.3017

- Enhanced MW Security performance.
- Enhanced error reporting in Btrieve class.

2016.05.1113

- Internal maintenance release (3rd party distributors)

2015

2015.11.04

- Obfuscation adjustment
- MW Security fix

2015.07.2019

- GUID properties were not returning lower case properly. Lower case a-f are now handled.

2015.07.09

- Cash Receipts Journal
 - CCRelatedTrx (integer)
 - CC_VANReference (string)

2014

2014.02.1715

- Fix Status tables CreationDate. Changed to TimeStamp

2014.06.23 14:30

- Fixed the MS Access [Maintain Customers] form. If user skips Terms entries, must handle null values.

2014.07.04 18:00

- Added Customer Address & Contacts forms for use w/ the [Maintain Customer] form. Sample code for Address & Contact insert/update is now modular in dedicated forms.

2014.07.16 14:00

- No functionality changes
- Security changes: some computers don't have serial#'s. Security adjusted for that.

2013

2013.10.2818

-- Sage 2014.2: UPSShipmments table changes made by Sage

2013.12.0320

-- Fix Version in Lists for 2014.2

2013.12.1810 (Installer change only)
